

Seeds of Plenty gift baskets feature a variety of artisan products by companies who share our commitment to social responsibility and environmental sustainability. With a focus on food provenance we are showcasing farm to table products such as *Dao Tea*, *Farmstead Wines* and our own organic sprouted flour cookies made from ancient grains.

AT SEEDS OF PLENTY WE COMBINE ORGANIC, UNREFINED INGREDIENTS WITH A SPROUTING METHOD THAT UNLEASHES THE GOODNESS IN YOUR GRAIN.

For your health:

We have created a highly digestible, nutrient rich and alkaline product. Our wheat-free, spelt products are low in gluten, calories and fat while high in fiber.

For your planet:

We source organic and fair-trade ingredients both locally and globally to support sustainable and ethical farming practices.

For your community:

We give back to The World in a Garden (www.theworldinagarden.com), a multicultural urban agriculture project that educates community and youth on the nutritional, cultural and social benefits of a just and local food system – both locally and globally.

We have perfected the recipe for a better planet, healthy communities and a happier you!
